STADIUM WORK BEGINS THIS TERM

I. S. T. A. PROGRAM IN 56TH MEETING WILL EMBODY NEW FEATURES

Program Changes Due To Impending Public School Legislation

SESSIONS BEGIN HERE TOMORROW

Distinguished Organist And Several Speakers On Program

When the Southern Division of the Illinois State Teachers Association meets tomorrow and Friday in its fifty-sixth annual convention many changes from the ordinary and traditional type of program will be in evidence. Quoting from the "Southern Illinois Schools": "Chief among the changes for this change in type of program is the fact that the State Legislature will meet after the turn of the year and foremost among the items of business will be school legislation."

"At the request of the State Teachers' Association, a considerable amount of time is to be given on all division programs this year so that each teacher may be thoroughly informed as to the latest recommendations and plans of the State Teachers Association and Board of Directors of the Illinois State Teachers' Association."

The reception which is to be held under the direction of Miss Crawford (theater) from 2:30 to 5:30 is a decidedly new feature.

Bertram S. Webster, distinguished eastern organist, will appear on the S. I. T. A. program Thursday evening at 7:30 in a recital. He will play and demonstrate the revolutionary Hammond Electric organ.

Mr. Webster, a graduate of the University of Chicago and former organist for Central Church of that city, studied in Paris under Guilmant. He returned to America as chorister and organist in Old St. Andrews of Pittsburgh. Following an extended period as conductor of the Mendelssohn Choir of Greenway, Pennsylvania, he came to St. Louis.

Naliphitz, Isserman to Speak

Chief among speakers on the program are Dr. James Kaimowitz, inventor of basketball and a member of the Kansas University faculty since 1898; Rabbi Ferdinand Isserman of the Temple of Israel, St. Louis; John Wieland, Superintendent of Public Instruction, T. A. Reynolds, Assistant State Superintendent of Schools; Fred Broder, chairman of the Legislative Committee of the State Teachers' Association; and Charles W. Knudsen.

"Dr. Charles W. Knudsen," according to the Southern Illinois Teacher, "is one of the leading educators of the south. He is now professor in the Department of Education of George Peabody College for Teachers, Nashville, Tennessee. He has the degrees of Bachelor of Science, Master of Science, and Doctor of Philosophy from the University of Illinois. Some positions of note held by Dr. Knudsen are Consultant in the Teachers' Training Department, (Continued on page six)

CONTEST WINNING PLAY WILL BE GIVEN APRIL 2

"Pandemonium Reigns" or "The Beer-King Mystery" in one act will be unveiled in the halls of April Fool's day to take its place among the side-splitting melodramas in campus history.

"Pandemonium Reigns," which won the Little Theatre contest, was written by Evelyn Miller, with incidental dialogue by Ernest Brashner. The play, which is being directed by Miss Julia Jonah, will be presented in the Soerath Hall on April 2.

At length the hero, Ernest Brashner, will give his interpretation of a rash, hard-drinking but poetic college youth of twenty-two. Patina, the blonde coed in the case, will be played by Virginia Cummins. The brilliant supporting cast headed by Gaylord Winkler in the role of Louis's noble room-mate, will be Sue Crain, Allan Sager, and Frank Elders, as well as a small army of witnesses, police, and court attendants.

The melodrama gives an account of a poor misjudged youth who gets himself arrested on a charge of murder, which leads to a thrilling court scene with suggestions of local events and happenings in the recent past.

ZETETIC SPRING. PLAY TO BE 7TH WEEK OF TERM

For the first time in many years the custom of having the spring play of both the Socratic and Zetetic literary societies presented during commencement week is to be changed this year.

At the recommendation of Miss Julia Jonah, director of the plays, a committee consisting of members from both societies met and decided that the Zetetic society was to present their play during the seventh week of the spring term.

The selection of the play was put into the hands of a committee consisting of Kate Burkhardt, chairman, Betty Wick, Edward Mitchell, and Wesley Bostedt with the assistance of Miss Jonah. They decided to present a melodrama chosen from the following list: "Under the Gas Light," "Fashion," and "The Diamonds of Death," or "Dunking Dilligam's Dilemma." The troupe for parts will be held tonight.

It is hoped that this new arrangement will result in more profit from the plays for both societies as well as lightening the work for Miss Jonah and the casts.

PLAY RECEIPTS BRING \$242 TO STADIUM FUND

A contribution of \$242.64, accruing from the paid admissions to the Aron Players' two Shakespearean plays, presented on the Entertainment Course in Shryock Auditorium last Thursday afternoon and night, will be given by the Course to the S. I. T. C. stadium fund, it was announced following the final checkup on attendance.

An official estimate of attendance at the two plays, to which college students were admitted on presentation of their activities ticket, gave 1500 as the matinee crowd, and 1500 as the audience for the night performance. It was estimated that at both plays there were 513 high school students, admitted at a price of 25c, and 247 adults, entering under a gate charge of 50c.

The last Entertainment Course number of the year will probably bring to the college auditorium late in April or early in May Mignon Spence, Metropolitan girl who has won fame abroad as a singer. Miss Spence has been in Germany and Belgium for about six years, and has been invited to sing at S. I. T. C. in her recently completed American tour.

Reply to the offer sent recently to Miss Spence by President Roscoe Pulliam has not yet been received, but is expected soon.

CHICAGO EGYPTIAN CLUB TO SPONSOR VOCAL CONTEST HERE SATURDAY

To Be Preliminary to \$125 Scholarship Competition

The preliminary contest for vocal soloists from the 25th district who wish to compete for the two \$125 scholarships at the Chicago Conservatory of Music, offered under the auspices of the Chicago Egyptian Club, will be held on the campus here at 9 o'clock Saturday morning.

The preliminary contest is being sponsored by the Music Department of the S. I. T. C., and the travelling expenses to Chicago for the two winning contestants will be paid by the college. Those wishing to enter in the preliminaries must notify Wendell Margrave of the S. I. T. C. Music Department, not later than Friday.

This is the first competition of this sort for vocalists of this section. There are no restrictions concerning entries—any individual in this district is eligible to compete. Also, the contestants may sing any type of number.

Judges will be qualified music critics of this district, probably including some from the Southern faculty. The two scholarships will be given to the winners of the final contest, participated in by the two representatives from the 22nd, 23rd, 24th, and 25th districts. The finals will be held after the annual dinner meeting of the Chicago Club at the Grand Ballroom of the Hotel Sherman on the evening of April 11. The eight competitors in this final meet must report in Chicago on the morning of that date.

A scholarship is valued at \$125 and will cover a twenty-week session, with two lessons a week at the Chicago Conservatory of Music. While the two representatives—one male and one female—have been selected at the preliminaries at S. I. T. C. on the morning of March 23, the college will handle the photography and news releases called for by the Chicago Egyptian Club.

Personal Experience Furnishes Background For Louis Adamic's Interest In Labor Problems

Bewilderment of Present Day World Expressed By Lecturer, Who Says, "People Are in a Mess"

By GEORGINA LOCKIE

"When did I first become interested in labor problems?" Louis Adamic smiled briefly and immediately became serious again. "I have been interested all my life," he answered.

"I became interested through personal experience with labor conditions and working at different professions."

Seated in a chapel seat, this critic of social and economic problems discussed his career as a writer and explained economic problems discussed his career as a writer and explained his theory for improving world conditions. Having been accepted as he stalked from the president's office Thursday morning, Mr. Adamic readily assented to a brief interview and retired informally to the auditorium.

"I move around from place to place—I don't stay in one place for a long time. In the last three years I have traveled over twenty-five thousand miles," he added. In obtaining the experiences which constitute the background for his books, Mr. Adamic has drifted over "The United States and most of Europe and has acquired a speaking knowledge of seven languages."

He is a tall, dark, serious man who

Mrs. H. W. Shryock Dies Here Monday

Less than a year after the death of her husband, the late R. I. T. C. president, H. W. Shryock, Mrs. H. W. Shryock died at 8:16 o'clock Monday night at her home here, she was 73 years old. Death came as a result of a heart attack. Mrs. Shryock had been troubled with heart ailments for several years, and since January 1, 1935, had been virtually bedfast as a result of a fractured hip, suffered in a fall.

The funeral is being held this morning at 10 o'clock at the Oaklawn Cemetery, with the Reverend Charles N. Sharpe officiating. If the weather is inclement, the services will be held at the Presbyterian church. Burial will be at Oaklawn, where Mr. Shryock is interred. The procession starts from the funeral home at 9:45.

College classes are dismissed after chapel this morning, so that faculty members may attend the services. The classes will resume this afternoon.

Honorary pallbearers will be Dr. R. L. Rye, Dr. C. H. Cramer, Dr. R. A. Scott, William McAndrew, Francis Hewitt, and John Fitch. A quartet including Mrs. David S. McIntosh, Miss Bess Bevis, Mr. McIntosh, and Robert Dunn, will sing at the church ceremony.

Mrs. Shryock was born Jessie Barnett in Olney, Illinois, on December 17, 1862. She attended public schools in Olney, and was married to Mr. Shryock in 1886. She had always maintained an interest in young people, and had served as patroness of the Delta Sigma Epsilon sorority chapter on this campus from 1925 until the death of her husband last spring.

Four Numbers On Socratic Program Tonight

The regular meeting of the Socratic Literary Society will feature four numbers on its program beginning at 7:30 this evening. These will be a vocal solo by Orlean Adams, a dramatic reading by Laura Williams, a harmonious solo by Ruth Ella Neal and a violin solo by Morrison England.

Equipment Sent Out

As rapidly as these county committees are being set up, the chairman of the committees are being sent the equipment with which to conduct their campaign for funds and for setting up the permanent alumni association. Included in this equipment is a complete card file with the names of all the alumni in that county whose addresses have been received by the stadium office, a list of the students from that county who are enrolled here now, and a complete list of the alumni of S. I. T. C. now residing in that county. Also, it is possible, a list of all students on the registration rolls from each county is being mailed to the county committee chairman. Receipt books for contributions are being furnished and contributors are being urged to ask for receipts for their donations. Additional publicity matter is also being furnished to the chairman for use by solicitors and newspapers in the districts.

During the past week Captain McAndrew has spoken at meetings at Anna and Carmi, Thursday and Friday respectively, and at Fairfield, Sunday. The latter was a Wayne County committee meeting called by Leonard Swarth, county superintendent.

In addition, meetings of the Pore county and Saline county committees were held Monday and Tuesday nights. The former meeting was held at Golconda, under the supervision of Mrs. Belle Partridge, county superintendent. At the latter was the latter was at Harrisburg, led by W. R. Westbrook, county superintendent.

On Friday, April 3, Captain McAndrew will address a dinner meeting of the S. I. T. C. alumni in the Southeastern Division of the Illinois State Teachers Association at St. Louis. This meeting will be called by E. B. Burroughs, president of the Southeastern division and superintendent of New Webster and Webster Annex schools of Collinsville.

Whenever possible, the chairman of the county student groups at S. I. T. C. (Continued on page three)

SEVERAL COUNTY COMMITTEES SET UP IN STADIUM FUND CAMPAIGN

Superintendents and Principals Serve As Chairmen

SEEK PERMANENT ALUMNI ORGAN

Such Is Long-Time Objective of Drive

Several county canvassing committees for the S. I. T. C. stadium drive have been set up during the past two weeks, largely as a result of the activity of Captain William McAndrew in contacting county superintendents and alumni of this school.

Among these are the Marion county committee under the chairmanship of John Bleham, principal of Irving school of Centralia; the Williamson county committee headed by Troy Hawkins, principal of the South Side school of Harris; the White county group, led by Harry Pantney, county superintendent of schools; and the Jackson county committee under the chairmanship of L. E. Eitherton, county superintendent of schools.

Evidence of the attitude of those who have been contacted by Mr. McAndrew is shown by the following statement made by him: "We are getting fine cooperation. But are finding a lot of inertia to overcome because the alumni have never worked together before. Our long time objective is an active alumni organization, not a money-getting concern. This organization rests with the alumni themselves."

Entertainment Course To Be Continued Summer Term

Students who will enroll in the county summer session will have the opportunity of securing the Egyptian and attending an entertainment course. Neither of these have been offered previously. A special committee, consisting of Dr. W. C. Swartz, chairman, Dr. J. W. Neekers, business manager, Dr. B. W. Marvin, Dr. C. H. Cramer, Dr. C. C. Non, and David S. McIntosh, has been appointed to take care of the summer term entertainment course.

The Egyptian will be edited weekly in the same manner that it is published during the regular school year. An entertainment course will also be offered which will present at least one nationally known educational lecturer and some good musical and dramatic numbers.

Hetherington Gets Rotary Loan

The first S. I. T. C. student to receive aid from the recently established Student Investment Fund created by the Carbondale Rotary Club is Gene Hetherington. It was announced yesterday that Hetherington was the recipient of the \$25 loan for the spring term. Merit as well as need is a determining factor in the selecting of the recipient of Rotary aid.

Hetherington is a senior from Harrisburg, and is taking a chemistry major, with a minor in English. He is president of the Carbondale Rotary Club, and also has been one of the three years has aided Leland P. Lurie in handling the intramural basketball program, serving as scorer and timekeeper.

Plans for the future loan through the club Student Investment Fund are not complete, but it is expected that the loan will be made each term.

MCDOWELL CLUB TO SING ON WSM PROGRAM FRIDAY

A group of members of the McDowell Club will leave for Nashville, Tennessee, Friday, where they will appear on the S. I. T. C. program which is to be broadcasted over station W.S.M. at 6:30 p. m. Friday, W.S.M. is the radio station at the George Peabody College in Nashville. They will sing three numbers as follows:

- "Cherish Song"—P. S. Tschakowsky.
- "Now Let Every Tongue Adore Thee" from "Sleepers, Wake"—Jo-hann S. Bach.
- "Turn Ye To Me"—traditional Scotch melody arranged by Noble Cain.

The members who will make the trip follow:

- Soprano—Frances Tansbury, Ruth Hicks, Mary Lee Dixon, Jewell Melvin, Vivian Johnson, Jean Chaudron, Mrs. Timothy Neoham.
- Alto—Kate Burkhardt, Play Robinson, Elizabeth Brown, Helen Train, Virginia Sherpe, Nellie Whitlock.
- Tenor—Leo Babcock, Leroy Babcock, Orland Kelley, J. Friedline, Frank Thomas, J. C. Hancock, Walter Byrner.
- Bass—Lavern Marietta, Allen Sager, Robert Tanner, Charles Stiff, James Murphy, and T. B. Kelley.

Accompanist—Carol Fugate.

The trip will be made in a bus and the group will remain in Nashville Friday night and return to Carbondale on Saturday.

ENROLLMENT OF 1300 RECORDED

Last Friday evening the S. I. T. C. spring term enrollment figure stood at 1300. The total last year for spring term reached 1365. It is expected that the latter figure will be equalled or exceeded before registration definitely closes.

Mu Tau Pi Will Initiate Virginia Spiller Tomorrow

Both the initiation of the present Mu Tau Pi pledge class of one, and the consideration of annual spring pledges will be in order of business in the Journalism Fraternity meeting tomorrow afternoon at 4 o'clock at the country home of Barbara Jane Scott.

Virginia Spiller, prominent senior student and writer, is to be initiated into the Journalism Fraternity. Miss Spiller has fulfilled the "one year of meritorious service on one of the campus publications" qualification by her work as Egyptian feature editor this year.

Also further plans for the annual scholastic press conference sponsored by the group, and expanded this year to include the entire section serviced by S. I. T. C., will be discussed. The conference will be held on the campus Friday, April 17, with a distinguished outside speaker on the program. The choice for speaker will be announced soon.

Reminder cards are being mailed out this week to the various southern Illinois high schools which were invited to the meeting.

One Application For A. A. U. W. Loan

There has been one application to date for the A. A. U. W. scholarship loan. It was announced last week.

The rights to be granted to a junior girl on the basis of scholarship, personal ability, and promise of teaching ability.

Thanks for application may be obtained from the A. A. U. W. committee, which is composed of Dr. Varn L. Pascoe, Dean Lucy R. Woody and Annemarie Kean. Applications must be in by April 15.

to some deserving college senior here. The Investment Fund committee is under the chairmanship of Claude W. Blakey, and includes E. G. Lutz, dean of men at S. I. T. C., and Dr. Cameron Harmon. Cash donations from the members at their week meetings have built up the fund.

No Classes For 12:30 P. M. Thursday

Because of the annual meeting of the Southern Division of the Illinois State Teachers Association which is being held here on Thursday and Friday, there will be no classes from Thursday at 12:30 P. M. until Monday morning.

There will be no chapel exercises Thursday, the first five hours of classes being run straight through without interruption, with dismissal at 12:30.

letics—the offering of opportunities for mass indulgence—were laudably fulfilled.

This week's organization is underway for the annual spring basketball leagues, also popular with S. I. T. C. male undergrads and also giving them opportunity to engage in competitive sport. This intramural competition is under the supervision of Dr. R. L. Beyer, commissioner of the league for the past several seasons. Captain William McAndrew, Vincent DiGiovanna.

Support should be given all of the intramural competitions here, as they are important steps in a well rounded and complete college education.

STUDENT ATTENDANCE AT PLAYS AND LECTURE INDICATES APPRECIATION

That students are now intellectually awake and appreciate the entertainment planned by the administration was proven last week by their attendance at the Shakespeare plays and the Aztec lecture. Although the Avon players were not especially good, and the weather on the night of the lecture was extremely disagreeable, the attendance for both events showed that the students are interested in better entertainments.

Since the students have erased the charge of apathy which they incurred last fall, the continuance and enlargement of the entertainment program would be very desirable. Such a series not only helps the students but also brings out- siders into contact with the college and gives them an insight of the work now being car- ried on at S. I. T. C.

In addition to securing more and better speakers and entertainers, an addition of new stage settings would also be extremely work- ing. The series of Shakespeare plays, the Aztec player who asked if we ever gave any plays here sufficiently described the decrepit and inade- quate property furnishings which now impede stage crews who attempt to produce good set- tings for our dramatic productions.

In the future, the series of Shakespeare plays are now becoming well-known beyond the college for their merits. The continuance of these series plus the addition of better settings will fur- ther the administration's desire to bring something worthwhile to the students and to others.

A NEW ERA HERE IN INTERCOLLEGIATE DEBATING

Within a few weeks the intercollegiate debate season will close, and with it will end the first year of debating financed by S. I. T. C. In previous years some debates have been held with other colleges, but they have been financed per- sonally by interested faculty members and stu- dents. The fund provided this year was meager in comparison with amounts devoted to forensics in other colleges, but it was a princely sum in comparison with debate funds of previous years at S. I. T. C., since the latter totaled exactly nothing.

Although a number of invitations had to be declined, the club here made good use of its limited funds. The debate squad participated in two tournaments sending two teams to one and the entire squad of four teams to the Bloom- ington tournament during spring vacation. In addition the various teams have competed with those of other colleges in single and dual debates.

The debaters themselves have developed much time to research and preparation throughout the year. They either remained in Carbondale, or returned early, during spring vacation in order to participate in the tournament at Bloomington.

However, all credit goes to the faculty mem- bers who have acted as judges and taken the teams to the various colleges, thus contributing a great deal toward making this a successful season for S. I. T. C. forensics. Outstanding among these faculty members is Dr. Charles D. Tenney who has not only taken the debaters on most of the trips, acted as judge in the tournaments and sponsored the Debate Club, but also accepted the position of official coach.

The creation of the debate fund and the ap- pointment of the club here have ushered in a new era in intercollegiate debating in this college. Undoubtedly the fund should be increased in the near future, and debating activities ex- panded even more than at present.

FOR AN ANTI WAR DEMONSTRATION

When we suggest that some sort of sensible, scholarly anti-war demonstration be staged here April 22 we're in the superficially embarrassing position of appearing to advocate, and urging something we object to in this column some weeks ago, but there is no reversal of policy; there is only a discovery of facts lending them- selves readily to a successful notification of the public that college students here actively and energetically object to war.

In the "Why Strike" editorial in the Egyptian for February 12, our quarrel was only with the pitfalls and dangers of the student strike plan, not with intents or purposes. Therein we pointed out the possibility of the defeat of the strike's purpose by misinterpretation, misunderstanding, or the danger of violence and misconduct. These fears have been overcome by several recent de- velopments, both local and national.

In the first place, the American Student Union, which has called a one-hour strike for April 22, recently sent an appeal to 500 college and university presidents, calling for cooperation and recognition of the "praiseworthy and con- scientious motivation" of the strike. The state- ment asked college authorities to "concede the high-minded basis of the strike, provide the channels here for its expression." It was signed by Joseph P. Lash, executive secretary of the Union.

Such an appeal indicates the evident intent of the Union to maintain the demonstrations on a peaceful, orderly plan, to appeal to the intellect, and avoid any dissensions or misunderstandings caused by publicity-seeking, wild-eyed breathers gain- ing control of the strike.

Then, too, the S. I. T. C. president has in- dicated his intention that the college should be a campus anti-war demonstration. The editorial facilities will be available for an hour April 22, and students who wish to attend the demon- stration in good faith will be excused from classes.

With Mr. Pulliam's whole hearted co-operation, this college should be able to bring about an effective and worthwhile anti-war demonstration (not strike, as the connota- tion of that word might lead favor to some).

The college Modern Problems Club, recently affiliated with the American Student Union, has planned a demonstration for the same day. The as- sistance has been made that an hour's program, beginning at 11 o'clock be arranged, and that some reputable and capable speaker be obtained. The Egyptian hopes that the Problems group carries through suggestion, and that college students here are so to it that the demonstration receives sincere and complete support.

Mr. Lash stated in his open letter that more than 300,000 collegians were expected to partici- pate in the nationwide demonstration, almost double the number of last year.

Let Southern distinguish itself for the practical and beneficial manner of conducting the protest move, and let the orderly and sensible local demonstration be a model in efficiency and informative value.

SUPPORT DESERVED FOR INTRAMURALS HERE

Just before the spring holidays the annual basketball schedule was completed, with the college champion team decided in a playoff game between the two league winners. More important than the victory, however, is the fact that, under the able and considerate leadership of Coach Ed- ling, more than 200 men received both benefi- cial physical training and enjoyable competi- tion. Thereby the principles of intramural ath-

letics—the offering of opportunities for mass indulgence—were laudably fulfilled.

This week's organization is underway for the annual spring basketball leagues, also popular with S. I. T. C. male undergrads and also giving them opportunity to engage in competitive sport. This intramural competition is under the supervision of Dr. R. L. Beyer, commissioner of the league for the past several seasons. Captain William McAndrew, Vincent DiGiovanna.

During the High School Invitational Tourna- ment held in the S. I. T. C. gym, March 11-12, Murphysboro won the championship by defeating Louisville by a score of 28-12.

THE DEAD PAST

TEN YEARS AGO

The requirements for graduation with a De- gree of Bachelor of Education as provided by the committee composed of Dean Wham, Miss Steag, Mr. Bell, W. G. Sawyer, and Mr. Colyer were immediately approved when the University of Illinois after their submission to the investi- gating committee.

A gay St. Patrick's day party was held in Anthony Hall. The hall was very beautifully decorated in emerald and white for the occasion.

The McKendree five defeated the Maroons by a score of 23-17 in the last game of the season, March 9.

During the High School Invitational Tourna- ment held in the S. I. T. C. gym, March 11-12, Murphysboro won the championship by defeating Louisville by a score of 28-12.

SPHINX

For many of our friends this term is the home stretch. Although they may be a little subdued at the thought of leaving, there is some satisfaction. No more of this mad house confusion which characterizes registration day. Maybe in 1936 there will be a new system.

Seibert and Knecht seemed to be going places the other night—We're a bit surprised at Walt.

How much has arrived. Arlie Whisenand can resume her tours in the long green touring car.

Glen Gregory, new Socratic pres- ident, was obviously enjoying the high school play contest last Wednesday evening.

We wonder how it feels to get a special invitation to chapel.

Dick Wittenborn came slipping back to school without much noise. Tell us about the pitfalls and perils of the Greek life.

Do you know what the Avon players thought of our stage equipment? We do!

PUBLIC ENEMY NO. 1

—he's the person who insists on playing this "Wahoo" thing at the local cafes.

Some two months ago disillusioned Frank Elders was heard to exclaim, "I'm through with women for life! From now on I devote all my time to my music." Somewhat he can't help but feel that he's repenting; he seems to be losing interest in that "big fiddle."

Can anyone explain why our dear departed associate, Charlie South, wanted to go to Carvilleville on night? We already know why he had to play- mate an violently opposed the idea.

Ye God! Peppola! I am!

BAMBOULA

Last Thursday the inmates of Ye Olde Bauman Hall raised a rather doubtful distinction—that of being the most exclusively male school here.

One was allowed to enter, likewise no one could leave.

Those passing were astounded at seeing eleven former college students, bounding around the steps, jerking at the neck intellectuals, who were hurrying to class.

There's a long story connected, but here's the dope all in a nutshell:

Last fall Bobby Schwartz was made the butt of several jokes, because in spite of his five feet two inches the average height of the Bauman Hall lites was six feet one inch. The pro- longed gentlemen such as Kong, Budde and the Brownways were rather inclined to "rib it him."

Now it's Bobby's turn to laugh. He has his meals served in bed and his former playmates are forced to stick around and keep him company.

CONTEST EDITORIAL

Submitted to the Egyptian in ac- cord with the contest rules, the fol- lowing editorial for entry in the "Why Neutrality Keep Us Out of War?" contest, sponsored by the "Nations" and the Foreign Policy Association, was written by Lois Galtner. Miss Galtner is a freshman in S. I. T. C. and lives in Brookport.

The contest, open to American col- lege students, closed March 16, and the winning entry has been selected. There are also several other prizes.

WILL NEUTRALITY KEEP US OUT OF WAR?

The answer to this question de- pends directly upon the definition of neutrality. If by neutrality is meant the policy which Americans tried to practice in 1917, the answer is "No." The United States has tried the old traditional "freedom of the seas" neutrality and is convinced that it is not a solution to the problem.

Neutrality means the prohibition of neutrality means quite a different policy. It means giving up the right to travel within the War Zone, giving up the right to protect Americans (traveling in foreign countries, and most objectionable to some, the right to make enormous profits by trading with the belligerents. The new neu- trality is in reality a policy of isola- tion, which has been assailed by some as a good road to war. They admit, however, that it could keep us out of a small war, but they say it would be futile in a situation like that in 1914. Yet didn't some coun- tries maintain complete neutrality during the World War?

It is true that those countries were not so large as the United States, and did not have such a flow of in- ternational trade as the United States. They were isolated to a considerable extent during peace times. In spite of this fact, America, one of the world's wealthiest nations, can keep out of a small war, but they say it would be futile in a situation like that in 1914. Yet didn't some coun- tries maintain complete neutrality during the World War?

“ROMEO AND JULIET” AND “HAMLET”
PLAY TO PACKED HOUSES LAST WEEK

Amusing Accidents Mar Matinee Performance;
“Hamlet” More Effective

Before packed houses in Shroyok Auditorium last Thursday the Avon Shakespearean Players presented “Romeo and Juliet” and “Hamlet.”

Despite a run of bad breaks and some amusing, if unfortunate, accidents, the matinee performance of “Romeo and Juliet” was well received by the large audience. The romantic and sentimental tragedy of the “star-crossed lovers” was unfolded in a brisk, modern manner, with an excellence comparable to the status of the Avon Players as a good second rate road show (and we mean no discredit by that), playing meaner cities and college sites.

A commendable and interesting— to this reviewer, at least—style of presentation, modern, yet not flippant in tone, or interlarding the words of the English bard brought about a great appreciation by an audience certainly not steeped in the Shakespearean tradition. Last week marked the first appearance here in recent years, of Shakespearean repertoire.

History Instructors
Here May Attend
State Convention

Several members of the S. I. T. C. History department are considering attending a program and luncheon which is to be held at Peoria on May 2 in connection with the spring meeting of the Illinois Historical Society. All college history teachers in Illinois have been invited, and invitations will probably be sent to the history teachers of the University of Chicago, University of Illinois, and Northwestern University.

Dr. Richard L. Beyer, head of the History department here, is conducting an inquiry this week among members of the department, and it is possible that an S. I. T. C. delegation may attend the program.

A smoker on the evening of May 1 will probably precede the meeting. The idea for this type of meeting grew out of conversations last week about three years ago when the American Historical Society met at Urbana. The sentiment was expressed that college history teachers should meet annually to discuss common history problems.

Further back on the lower floor, it seems that faculty hearing hurt the ears of these spectators during the phone's appearance.

Juliet Falls From Balcony
Juliet clattered noisily down from her balcony following one of her love scenes with Romeo, thereby bringing cries of laughter from the front row. Miss Perkin miraculously escaped injury, and apparently the most harm was to Romeo's curiosity, which suffered considerable strain during Juliet's unexplained absence. Romeo at the time was the only actor one of similar stature and his pantomimic abilities received a good workout.

Certainly to the discredit of S. I. T. C. was the fall of part of one of the cyparins during the ill-fated run of “Romeo and Juliet.” Neither in this situation nor in out or two other of similar nature in both places did the audience show any toleration or courtesy, although some of the accidents were admittedly very funny, such as the noisy hiccup from somewhere in the audience just as the King quaffed some wine in the play within a play scene in Hamlet.

The last minute substitution in the cast and the consequent personnel rearrangement for both plays, necessitated by the illness of Joseph Selman, doubtless handicapped the performances to a great extent. He customarily plays the parts of Romeo and Laertes and his substitute, formerly with the company, but now with WSM, Nashville radio station, was filling in on short notice.

The Avon Players have been on the road in the present unit for about eight years, playing mostly in the South. They call Atlanta, Georgia, their home office. Almost all of the nine members of the troupe have been on New York boards, according to Joseph Selman, the director.

Director Pleased With Turnout
This Mr. Selman was quite pleased with the turnout here, and after the performance Thursday night, highly discounted the crowd discrepancy. He expressed an interest in playing here again, preferably the coming summer, when the Players will make a tour of open air theatres. However, he said, they would also appear on indoor stages.

Coming here from Kentucky, the company moved last week to Alton. And then to Missouri, where they were scheduled for Central College in Fayette and the state University at Columbia. This was their first experience in this section of Illinois.

Mr. Selman explained that the Avon players book mostly college audiences on their tours, and that these audiences have seemed responsive to their liberal and modern interpretation of Shakespeare.

BIDS EXPECTED
ON CAMPUS WORK
CONTINUATION

Acceptance Will Probably Be Next Week

A \$24,000 FUND REMAINS

Additional Repair Work To Be Done On Campus Buildings

Probability that bids would be accepted by April 15 for the continuation of remodeling and reconstruction work on this campus was expressed by Edward V. Miles, Jr., business agent of the college, this week. This statement followed the visit of President Roosevelt Pullman to Springfield last week when he interviewed the State Architect on this subject.

The work already done on this WPA project has been the strengthening of the second floor of Wheeler Library and the creating of an auditorium and class room on the second floor of the Old Science building.

Bids will probably be submitted about April 1, and will be immediately passed upon unless the total for the work planned exceeds the amount left for work under the original WPA appropriation. Of the \$23,000 originally granted, slightly less than \$3,000 has been expended, leaving approximately \$24,000 for the remaining work.

The work which is planned under this continuation of the project calls for improvements in four places: the Old Science building, Wheeler Library, Shroyok Auditorium, and the tunnel system of the college.

Shower Room Improvement in Old Science
Included in the work to be done in the Old Science building is the installation of a new gymnasium floor, new tile floor in the men's and women's shower rooms, new waterproof walls in the shower rooms, and a stairway leading from the first floor of the gymnasium to the balcony. The outer balcony door will be closed. A new stairway will be built from the first floor of the building to the second floor, replacing the one now in use.

The floors will be laid in the first floor entrance and on the second floor corridor. The building will be renovated and repainted throughout. Flooring on the second story will be refinished and new wiring will be installed in the gymnasium and the second story. Two new rooms will be created from the present physics laboratory. An additional feature of safety will be added by the erection of fire escapes on the northeast corner and west wall of the building. The library work will center around the redecoration and painting of both the first and second floor reading rooms. Indirect lighting fixtures will be installed on both floors. In the event that these other improvements are finished in this building, Mr. Miles expressed the probability that the state would lay new linoleum in the first floor study room.

New Panel Board in Auditorium
A new panel board will probably be installed in the auditorium, and the tunnel project calls for rewiring. It is still undetermined whether this new wiring will be placed in the tunnels or it is now or whether it will be laid separately. The latter method is being advocated as having greater safety.

If the appropriation remaining is not sufficient to care for all of these phases of the work only those portions which are regarded as most necessary to the college will be carried out. However, it is reasonably certain that work will be commenced soon after April 10.

Personal Experience
Furnishes Background
For Adamic's Interest

(Continued from page one)

In addition to writing Mr. Adamic has another great interest—education. As he became engrossed in this subject he leaned over the seat and energetically explained what it means to him. When talking of his theory, Mr. Adamic's sincerity overflows, and he expresses himself earnestly, showing a surprising knowledge of American slang.

“People are in a mess,” he exploded. “The world is all messed up. People don't know what they are doing. Facts are crammed into their heads—that's all they know—they are mere shadows.” And he went on to explain the theory which constituted his evening lecture.

As he talked, the varying moods which he felt found expression on his face. In this brief time the diverse feelings of joy, sorrow, hopelessness, and thoughtfulness were reflected there while he spoke, gesturing impulsively with his head and hands. He concluded his explanation saying, “I have written an article on the subject which I wish you would mention. It is called ‘Education on a Mountain’ and will be published in the April issue of Harper's magazine.”

Having finished his discussion Mr. Adamic was asked, “What is your opinion of labor conditions in the Southern Illinois coal belt as they stand now?”

“How do they appear to you?” he returned. “I haven't been through here in three years.” He then spoke of the article which he wrote on the subject and what appeared in the March 25, 1935, issue of the Nation.

Will Continue Lecturing
“Now is there anything else you would like to know,” he inquired politely as the eleven o'clock bell

method is being advocated as having greater safety.

If the appropriation remaining is not sufficient to care for all of these phases of the work only those portions which are regarded as most necessary to the college will be carried out. However, it is reasonably certain that work will be commenced soon after April 10.

KAPPA PHI KAPPA INITIATES FOUR

At a meeting held on Thursday night four new members were initiated into Kappa Phi Kappa. These initiates were Russell M. Nolan, head of the Economics department, Fred E. Lauder, Carville High School critic, Troy Hawkins, Principal of a Herrin grade school, and James W. Saffers, Carbondale, Illinois, and a junior in S. I. T. C.

Several out-of-town members attended this meeting, including Allan Graves, former president of Kappa Phi Kappa, Leon Fox, Principal, and R. C. Eckert, all of Herrin, and Roscoe Pethman of Murphysboro.

A joint banquet is planned together with Phi Delta Kappa for next Thursday at the Baptist Church Annex.

LOUIS ADAMIC, IDEALIST, TELLS OF EDUCATIONAL POSSIBILITIES

Looks to Education to Lead World Out of Chaos

SPONSORED HERE BY A. A. U. W.

Urges Development of The Esthetic Qualities

Louis Adamic, lecturer, observer, and critic of modern social and economic problems, explained his idealistic solution of present day troubles to the crowd which gathered in the Shryock auditorium Thursday night to hear the speaker brought here by the American Association of University Women organization.

In his address, entitled, "Where Lies the Future of Humanity?" Mr. Adamic expounded his theory of education as a means to make humans realize the best way to live and bring the world out of the present chaos. Speaking in an unusual style, distinguished by vivid descriptive passages and unexpected insertions of American slang for emphasis, Mr. Adamic's sincere and earnest interpretation of his theory held the audience from the beginning to the conclusion of his speech, regardless of

the listeners' personal beliefs on the subject. The writer, who attained recognition by his books recording his experiences as a laborer in various types of occupations, began his address with a description of the world situation as he saw it. For the audience he painted a picture of mankind, sordid and hopeless in every detail.

"I am one of those people who believe that the business of human living has not yet begun," he continued. "The masses of men are still caught in the night, and they stumble about like sleepwalkers, driven by vague, twisted dreams, oppressed and torn by nightmarish, hysterical, jittery, malignant unconscious as to what is happening to them, what they are doing. Although a few are awake and afraid, the masses still remain in the dark, living within themselves."

Here Mr. Adamic gave a more concrete description of the situation in which people of today find themselves. He spoke of the loneliness, feeling to which they are subjected. Although they are for the most part misfits in their jobs, he believes firmly in their potentialities. "A great many men and women now are living who are full of potential power, full of incipient high qualities which are not developed," he stated.

Blames Administrators for Lack of Imagination

For this state in which the world finds itself today, Mr. Adamic blames the politicians, the soldiers, the technologists and the traders. He says that these people lack the spark necessary for correct living, the trait of creative, positive, long range imagination.

Launching into this theory, Mr. Adamic explained: "The chief distinction between man and other creatures in this world is that divine quality, positive imagination. Man has in him a bit of God. But the trouble is that he has never given it a chance."

Thus, to extricate the world from the present chaos, Mr. Adamic recalls words that artists have substituted for the politicians, schemers, and technologists, whom, according to his belief, the colleges and universities are producing. "Education should be producing people whose values will be qualitative and not quantitative."

S. I. T. C. DEBATORS CLOSE SEASON AGAINST WASHINGTON U. APRIL 2

Spiller and Walker Will Be S. I. T. C. Debate Club Is Admitted Into State Group

In the final forensic tilt of the season Virginia Spiller and Mildred Walker, S. I. T. C. debaters, will meet Washington University in St. Louis on April 2. They will uphold the affirmative of the question, "Resolved, that the United States should cooperate with the League of Nations in enforcing sanctions as provided in the Covenant of the League."

Last Wednesday representatives of McKendree College met with S. I. T. C. team in a non-decision debate in the Auditorium of the Allyn building. Roy Griebel and John Oppits of McKendree opposed the affirmative in the Supreme Court question, while William Browning and Allen Buchanan defended the negative.

The visitors were accompanied by their coach, Dr. Earl W. Hayter. All the debaters were entertained at a dinner after the debate.

lative; people who will be eternally modest and as such distinguished not by what they will know, but by what they will do with what they know."

To evolve the happiness which he believes will be attained not in the present but in future generations, Mr. Adamic stated that the people educated as artists should occupy the center of life, that they should become the directors of human affairs, occupying the high places in this country.

Education Must Develop Emotions

Placing upon education the responsibility of producing these artists, Mr. Adamic then listed what he considers the aims of education. "Education," he asserted, "should develop young people into artists whose art is to be the betterment of the world. It will be the artistic approach. Education must begin to realize that man will have to learn to follow ideals and ideas instead of one another. It must develop the emotions as well as the intellect."

"We must bring some people," he continued, "to the realization of what they are fit for, what their jobs are, what exactly is the way in which they are unique, what sort of artists they are."

In describing the traits which the youth must possess he predicted that they must become conversant with beauty, able to differentiate between the politician and the artist. In addition to being sensitive, they must also be calm, decisive and strong enough to face the world and be able to cope with the adverse conditions which they must encounter. The lecturer ended his address with a plea to give the artist in the human a chance.

The interest which Mr. Adamic aroused in his listeners manifested itself in the open forum which followed the brief introduction when those who desired to meet the lecturer were given the opportunity to converse with him. In the discussion he stated his belief that the ultimate goal for human happiness will be achieved through education. He again emphasized the major role which education must play in the change, saying, "Students could bring about the change. Even now there is a great deal of discontent and misery among the teachers everywhere. It is a widespread thing in the colleges and universities. It is education which must produce people well-adjusted within themselves who will in turn produce the change."

At the Illinois Intercollegiate Debate Tournament on March 13 and 14, the S. I. T. C. Debate Club was admitted into the Illinois Association. The annual state tournament was held at Bloomington and Normal with Illinois Wesleyan and Illinois S. B. N. U. as hosts to the nineteen colleges entered. Defeat came to the students in the women's division, where teams from eleven colleges debated the League sanctions question. Wheaton was victorious in the men's division, in which thirty-four men's teams decided the fate of the Supreme Court. The trophies were presented to the winning schools at a luncheon Saturday at Fell Hall. The debaters' coaches, and judges were guests at a reception on the preceding evening. Representing S. I. T. C. in the tournament were four teams: affirmative, Mildred Walker and Earl W. Hayter; negative, Evelyn Miller and Virginia Spiller; affirmative, Lowell Samuel and Vernon Hicks; negative, William Browning and Allen Buchanan.

These teams were coached by Dr. Charles D. Tenney, Wendell Mar, and Dr. Tenney were judges in the tournament.

This is the first year teams from this school have entered a tournament, but their ability was demonstrated in that they won decisions from four colleges.

Faner to Begin Duties as Dunbar Sponsor Tuesday

Robert H. Faner, who has consented to be the Dunbar sponsor, will begin his duties next Tuesday at the society meeting in the Allyn building. He will deliver a short talk in which he will give a brief outline of his plans for the future.

The society had its regular meeting last Tuesday night at 7 o'clock in the Allyn building assembly.

The event of the evening was a talk on "Native American Poetry," given by Dr. Charles D. Tenney of the English department. His talk centered around "Hill-Billy" poems that contained many natural passages.

He read poems depicting life in the hills of Georgia. After his talk different members of the society asked questions concerning his topic.

Washington University Speakers Address A. A. U. W. Meeting

Mrs. Starling, dean of women of Washington University and Miss Ingram of the Nursing school were guest speakers at a tea given by the A. A. U. W. Thursday afternoon.

Miss Ingram was born in China, where she spent the early years of her life. She was, therefore, well able to present a picture of the various types of Chinese women. She feels that Chinese women cannot yet be discussed because they vary so much in different sections of the country and in strata of social standing. However, Miss Ingram expressed the belief that it makes no difference in what social standing the Chinese women find herself, as she is content with that position which makes for happiness for all Chinese women.

Mrs. Starling discussed attitudes that are considered important among college students.

MOVIEING AROUND WITH RADIO NOTES

By Anthony Venegoni and Virginia Cummins

"Top Hat," "Roberta," and now, "Follow the Fleet" proved Astaire and Ginger Rogers to be the masters of that nimble art, dancing. You can have your Eleanor Powell, Bill Robinson, Ruby Keeler, and Hal LeRoy, Astaire and Rogers are still tops, and their latest picture, "Follow the Fleet" took in Fred Astaire's face, or that story material firmly entwined the team as first rate among the "flicker" dancers.

Ginger Rogers and Fred Astaire seem to bring something different to their dances. I don't know what it is; whether it's that Noel Coward look in Fred Astaire's face, or that "just try it, big boy" look in Ginger Rogers, but it is different from the run of the mill tap dances that we see so much. The interpretation of "Face the Music and Dance" was a challenge to anyone's artistic sense.

Harold Lloyd has made very few pictures lately, but whatever he has made, has been good. "Silky Way" is the usual Lloyd film—little innocent boy knocks out big, bad bully—result: Innocence becomes famous—too soon for his own good. Head. Gives a jolt to bring him down to earth. Whatever is lacking in the originality of the plot is made up by the freshness and sincerity of the acting in this film. It takes one back five or ten years, when one, as a child, could scarcely wait from one Harold Lloyd picture to another.

People have always felt that underneath it all, Jean Harlow wasn't so bad. There must be something good about her. "Vive Versus Secrecy" proves that. With a sympathetic radio Harlow wins your interest from the beginning and holds it to the end.

This play is of that very sophisticated type, packed full of dual-meaning lines. There are grand oldies, beautiful apartments, and luxurious offices. One always knows, or at least must not have been edited very well. In one scene between Gable and Myrna Loy in which even "Joe College" could learn something new about "smoothtalking." Myrna Loy made an error in English which seemed very incongruous to the rest of the setting. "When is holding on to what?"

It's hard to say why one dislikes George Raft. Maybe it's the knowledge that he has to stand on a stool to make love to a lady because he is so short; maybe it's hard to say, but he does gain one's wholehearted distrust and worst wishes. "It Had to Happen," his latest, tries to make Raft appear sympathetic. But it is so "wish-washing" that it falls utterly. Rosalind Russell, however, does a good job. "You had side had to share honors with Raft."

RADIO NOTES.

The Columbia Broadcasting System has arranged for three broadcasts of major interest during the month of April. A magnificent Palm-Sunday service from Jerusalem is the first of these on April 5. The second is the Easter benediction of Pius XII from Vatican City. The last is President Roosevelt's address to the Young Democrats of Maryland, from Baltimore.

The Easter program from the Vati-

can will probably be heard at 8:30 A. M., EST. The benediction is to be given from the balcony of St. Peter's Church. The Sistine Choir and a description of the Pappal procession will also be presented on this Easter program.

The famous Crimean War ballad, "Abdul Amihul Amir" was "revived" by Frank Crumit over the Columbia network Sunday. The song has a very colorful history, and Mr. Crumit was responsible for the first recording of the story of Abdul, Rex Ames Williams, noted writer, suggested the idea to Crumit. Before this the song had been merely a legend handed down by word of mouth. Mr. Crumit took the suggestion and his "disposition" sold more than 2,600,000 records, and is selling yet.

The final concert in the weekly series of "Understanding Opera" was presented over the Columbia network on Sunday. The program consisted of selections from four American operas. "Nabucco" by Victor Herbert; "Shaveriv" by Charles Wakefield Cadman; "The King's Henchman" by Deems Taylor; and George Gershwin's "Porgy and Bess," were played by Howard Barlow's Symphony Orchestra.

Harvard has a collection of 3,400 rare playing cards.

The Egyptian extends sympathy to Ernest Shryock, of the S. I. T. C. art department, in his bereavement caused by the death Monday of his mother, Mrs. H. W. Shryock. Mrs. Shryock was the wife of the former president of this college, who died last April 11.

S. I. T. C. Graduate To U. of I. Board

Orville M. Karkner of Harrisburg has been named by the University of Illinois board of trustees as the new president of the board. He replaces Walter W. Williams of Benton. Mr. Karkner was graduated from S. I. T. C. in the class of 1935.

LITTLE NINETEEN INDOOR MEET TO ATTRACT MAROON CINDER STARS

Payton, Cole, and Hill Sure to Make Trip Saturday

65 REPORT FOR PRACTICE

Loss of 13 Lettermen Leaves Dullest Outlook In Several Years

Following closely upon the heels of spring registration, 65 S. I. T. C. track aspirants have reported to Coach Leland P. Lingle. This is twenty men less than the number out at the same time last season.

The Maroon squad has the smallest crew of returning lettermen it has had for the last ten years. Out of the twenty-one lettermen on the last season's roster, only three failed to enroll this spring, leaving only eight men to form the nucleus of Coach Lingle's 1936 team.

Inclement weather has prevented the men from working the kinks out of their muscles and from beginning the conditioning work of the cinder chasers, so that no more than six or seven representatives will be sent to the Little Nineteen Conference Indoor Meet at North Central Saturday.

Only men who have a possibility of making the team will be present. Ducky splinter and runner, John Kenneth Cole, holder of outdoor high jump record at 6 foot 3 inches, and Dale Hill, sprinter and broad jumper, are sure to make the trip. Last year's star, the five mile, tying for fourth place with a collection of 23-5 points.

Other returning lettermen include Tom North, weight lifter and the only prospect to fill Harry Bauer's shoes. Bauer held the school records in the double and single shot, the 100-yard high school track star and a 200-yard grid performer, will probably bolster the ranks of the weightmen.

The javelin department will be handled by Bryan Kerley, "T" man and Art "Sniffer" Smith, the state high school champion. The high jump will feel the loss of Bob Reeves, but Kenneth Cole's return to the field will add several points to the season's total.

Crisp Lost to Team

The barriers will clear the barriers without the services of their colored ace, John "Twister" Crisp. This loss will not be felt so keenly as will others, because Payton will be available to fill his shoes. John King, tied with John Knash for the college record, and Vincent Paredes, also a letterman will clear the high hurdles, being pushed by David Aiken and Marion Wiley, two newcomers.

In the middle distance track events, Coach Lingle has Max Parsons, 880 letterman and the only aspirant for that distance at present. Morris Hildebrand and James Olson, both 440 runners and members of the state relay team. The squad will be without the services of Grisko, Buckner, Tripp, Moss, Lohde, and Newton in these events, all of whom were crack cindermen. This is probably the heaviest detrimental loss the squad will have to endure.

Need Piece Material

Although Coach Lingle has several outstanding athletes high in the order of the list, it is in need of good padding material. The coach is anxious, in order to round out the personnel and likewise to develop into a well-balanced team for the coming season. The dashes, low hurdles, and broad jump will be adequately handled by Payton and Hill. Neither, however, Jimmy Cole have much trouble with the high jumping division. The potentialities of the high hurdles and javelin hurlers indicate adequate performance in those stanzas, with a strong possibility of marks and scores developing into a couple of good shots and darts heavers. But even in those events wherein Southern looks to top the list, it will be necessary to have a squad of third and fourth place men to give additional points.

It is still early in the season and the bulky weather may find a good number of new prospects working out. There are several places to be filled by young track men who are in need of seasoning experience.

WILLIS TRANSFER
Bonded
Local and Long Distance Hauling
208 S. Washington Ave.
Carbondale, Ill.

SPORTS SLANTS

In a recent questionnaire given to the freshmen men by the athletic department, 180 of them signified their desire and intention to participate in track this coming season. Furthermore, everyone of this group stated that he had had previous training and experience in high school.

Out of the freshmen only a very small percentage has actually shown up, probably due to a feeling of inferiority. A glance over the prospects out for this season's varsity should convince any erstwhile trackmen who lack the courage of his conviction that there is a golden opportunity for him to add his name to the Maroon thimble's hall of fame. Any number of events are lacking entirely in prospective performers while others are at best infinitesimally handled.

That Russ Emery, veteran Maroon athlete who recently completed his fourth season as a varsity basketball regular, was really one of the outstanding players of the Little Nineteen conference is attested by the fact that he rated all conference choice on both the United Press and the Associated Press all star selections.

He was also chosen as league all star guard by sports editors of both the Normal-Viadette and the James Millikin Decaturian.

Three Little Nineteen basketball teams will meet the University of Illinois nine this spring. Charleston Teachers, Macomb Teachers, and Monmouth each have two games scheduled with the U. of I.

The Little Nineteen sprint men are already issued their orders to each other, in the various indoor meets being held in or near Chicago. At the Armour Track House, three of the first 400 finishers in the college 100-yard dash were Little Nineteeners. Clifton of Wesleyan finished second as Edgerton and Kemp, both of Bradley, came in third and fourth respectively. All three were among the semi-final 100-yard dash qualifiers in last year's conference outdoor meet.

Old Normal's mile relay team, which won the S. C. C. outdoor last year, finished second at Armour, while Barton of Old Normal took fourth in the college 70-yard high hurdles.

A new contender for the 440-yard title may appear at the Little Nine.

Two S. I. T. C. Grads Coach State High School Tourney Teams

Ralph Osborn of Johnston City, Indiana placed third in the State Inter-scholastic high school basketball tournament at Champaign last week, and exhibited the cleverest play of the tournament. Davison was graduated from S. I. T. C. in 1934 and last year was assistant coach of athletics at Johnston City.

Johnston City's five was eliminated in the semi-finals by the state champions, Decatur, by the score of 20-19. Johnston City held a lead with but one minute playing time left when a Decatur men caged a long shot which tilted the unfortunate Indiana in the consolation game against Mount Pleasant, who fell before the highly polished offense of Coach Davison's team. Dolph Stanley, a former student here, is the coach of the Mount Pleasant team and has the honor of taking two teams to the state semifinals within the past three years. Davison was the coach of the towering Equality team which placed third in the tourney two years ago.

Former S. I. T. C. Grid Star Killed

Three weeks before his expected wedding John Cooley, 25, of Harrisburg, regular football guard here in the fall of 1935, was fatally injured while playing football. He was overthrown near Vard, Illinois, Thursday night, March 5. The trailer attached to the truck crashed against the cab as the vehicle rolled off a twelve foot fill on Route 150, about a mile south of Anna. The car's rear wheel slipped and Cooley's leg slipped while driving. Cooley's companion, Chris Patterson, escaped unhurt.

teen indoor carnival as Ford of Macomb Teachers beat out Karl Helm of Normal Teachers for the 100-yard dash. Helm won the conference quarter last spring.

Other place winners in the Armour meet were the North Central and Elizabeth Wesleyan relay teams, which placed first and second respectively, and Godfrey of North Central, who placed second in the college 70-yard high hurdles. Godfrey was third in the record-breaking 120-yard high hurdle race at the Little Nineteen meet last spring.

As North Central defends its Illinois Intercollegiate Conference championship on the indoor boards at Naperville Saturday the Little Nineteen indoor records appear to be in for a genuine assault. None of the leaders of the present conference marks entered. The record holders are Seibert of North Central in the pole vault, Godfrey of North Central and Mason of Bradley, who share the 60 yard hurdle title, and Miller, Old Normal furthest east. None of the marks are particularly outstanding. Seibert has several times exceeded his vault height of 12 feet.

Incidentally the Naperville athletes have captured the indoor conference five times in the six years since 1921, when the meet was inaugurated. Bradley won the first, followed by Old Normal for two years, and then North Central started out on her victory string. She is the slight favorite to repeat again this year, but the range of the boys' track and superior conditioning of the conference publicly releases a give Old Normal and DeKalb the leading chances of upsetting the titelholders, with the rest of the entry field of fourteen expected to do no more than scrap it out for places.

The Maroons can not be counted to give any real indication of their true strength in the indoor carnival, as their training progress has suffered both from weather and inside the gymnasium. The new men have had a chance to perform under the expert eye of Coach Leland P. Lingle as yet, and the Southern entry list for the upstate meet will be drawn almost entirely from those athletes of known and proved ability.

A certain prominent member of the Browns, hard played if sometimes ineffective five in the college intramural basketball league, has charged the Browns with discrimination in overlooking the absent fact that said Browns have a claim 17% to the league title. The Morgan's Monkeys, winners of the National league and college championships twice in one night dropped decisions to the Browns. Anyway, this is the story of the aggrieved Brown players.

It seems that on one occasion last winter, the Monkeys lost a football game to the Browns, and that during the intermission caused by the defeat, the Browns had secured a team in a pickup game which had most of the Monkeys personnel. We salute the unworried champion Browns.

Southern footballers in the 1936 campaign might also at the all-time Maroon gridiron scoring mark, run up by the 1934 edition of various athletes. If "Papa" Ott, Olin Smith, and crew have to hang up any new scoring record, they'll better plan on tying the 113 points scored here November 7, 1934, against the National University eleven of St. Louis. The visiting team failed to score.

G. W. Smith Praises Early Eductor in Magazine Article

G. W. Smith, Professor Emeritus of S. I. T. C. pays tribute to a pioneer of the present day educational system in an article entitled "Father and Son" in the March issue of "This Month's Illinois Teacher."

As a pioneer of the present school system Father Roots is accredited with the "turning of the tide" from the University plan, including within it a Normal school, to the independent normal school system which exists today. It is stated that although he favored and helped establish a university for the entire state, he was also primarily interested in a normal school for his beloved Egypt.

Professor Smith tells the facts of Benjamin Root's life in his school work in Illinois—during which he was taught for eight dollars a month—and his interest in other states and fields. Father Roots is also described as a man of great personal character, whose life was devoted to the Free School Law of 1855 as a result

Track Talent Here Includes Former High School Stars

Art Heller and Charles Keyes, two southern Illinois representatives at the State Scholastic Track meet last spring, are two of the outstanding freshmen who have reported for S. I. T. C. varsity track. Heller, formerly member of the Carbondale Community High School squad, won second place in the javelin throw at the State Meet last year. This was the only defeat he suffered all season. His best throw was 175 feet, 8 inches.

Keyes, the other southern Illinois representative at the State meet, is a former student of Eldorado Township High School. He has thrown the discus 123 feet in high school competition, and he is expected to add a little more distance to his throws this year.

There are many other exceptionally good trackmen who are freshmen in the S. I. T. C. squad. Carl Keyes, last year ran the high hurdles in 18.5 seconds, and high jumped five feet nine inches.

Two other freshmen javelin throwers are Vinny Curtis of Carvilleville and Edward Hittory of Carmi. Their best throws last year were 138 feet. Frank Reeves, a former member of the Carbondale Community High School squad, is expected to high jump for the Maroon thimble. Last year Reeves jumped five feet ten inches.

There seems to be a generous supply of hurdlers out for track this year. Charles Gardner of Eldorado and Ralph Baysinger of Centralia are exceptionally good lumberjacks. Baysinger has both high and low hurdles track and superior conditioning.

Nolan Henderson, former Vandalia miller, has reported for varsity track. At Vandalia he ran the mile in four minutes and thirty-two seconds.

DUNBAR TEAM AN ENTRY IN STATE TOURNEY

The Dunbar basketball team of Southern Illinois Teachers College is expected to make a basketball tournament to be held at Webster's Grove, Illinois, this week-end. The Dunbar team plays the Leak Brothers' quintet in their first game.

The Leak Brothers' team from Centralia, England, Syron, Penn., Phillips, Bony, Cutner, and Logue. These men were chosen from the results of match play in the fall tourney and their diligence in winter practice. Several shifts have been made since the ranking at the end of the fall term due to the winter practice program.

Later revisions in ranking and admission of new players to the team will be determined by challenge match play. All prospects are urged to challenge the team members and the team members to challenge one another to match play. The results will determine the ranking and personnel of the varsity squad.

Tentative Schedule Lists Eight

The tentative schedule calls for eight matches with the following four schools: McKendree, Shurtleff, Case Girardeau, and Evansville College. All the matches have not been definitely arranged for, but in the event that the above list is correct, Coach Charles D. Tenney predicts at least three triumphs with strong possibilities of an undefeated season.

The organization and establishment of tennis as a recognized minor sport here is beginning last spring. The men were all required to compete in several matches in the fall tennis tourney, followed up by winter practice (once weekly in the gymnasium). With the resumption of outdoor activities the tennis club will be required to put in a certain number of hours outside of actual competition. This year-round program will necessitate enough workout to make a select few eligible for letter awards by the end of this season's play.

The organization and establishment of tennis as a recognized minor sport here is beginning last spring. The men were all required to compete in several matches in the fall tennis tourney, followed up by winter practice (once weekly in the gymnasium). With the resumption of outdoor activities the tennis club will be required to put in a certain number of hours outside of actual competition. This year-round program will necessitate enough workout to make a select few eligible for letter awards by the end of this season's play.

McAndrew to Speak At C. C. H. S. Banquet

Captain William McAndrew, director of athletics at S. I. T. C., will speak at the basketball banquet of the Carbondale Community High School tonight. His subject will be "The Growth and History of Basketball in the Educational System."

The banquet will be the climax of one of the most successful basketball seasons of C. C. H. S. in several years. During the season and tournament schedule, the team won eighteen games and lost just one. However, the Teachers' placed second in the regional tournament at Murphysboro, losing to Carvilleville in the finals, and second in the sectional tournament at Johnston City, losing to Johnston City in the finals.

of the organization of the State Teachers Association in 1852.

Professor Smith also asserts that Father Roots and associates Dr. Robert Allen, and Dr. Clark Burden, "kept alive the aspiration in public schools to the highest educational standards until they secured the enactment of the law which established the Southern Illinois Normal University."

The article also states that at the time of his death Father Roots was known as the oldest and most successful teacher in Illinois.

TENNIS SQUAD BEGINS PRACTICE WITH SEASON'S PROSPECTS GOOD

To Successful 1935 Squad is Added the No. 1 Man, Schwartz

ONLY ONE LOSS FROM LAST YEAR

To Play on City Courts; New College Courts May Be Available

With only one ranking player, Payton, missing from their last season's ranks, the members of the S. I. T. C. tennis squad have started spring training for a promising season. The team is made up of twelve members of seven consecutive dual victories, established last year without the assistance of this season's number one star, Bobby Schwartz.

The practice facilities have been greatly increased by an agreement with the City of Carbondale to use the downtown courts for practice and matches. The college is going to assist in preparing the courts for spring and summer use in return.

Likewise three new tennis courts are being constructed northwest of the new athletic field. Work is speedily being completed and it is doubtful if the spring will be in shape in time to accommodate the season's card. However, they may be completed by the district tennis meet which will be staged on the Southern campus.

Although thirty candidates appeared at the first ranking squad meeting, from which number will be picked a team of twelve to represent S. I. T. C. The team at present is made up of Schwartz, Spaul, Patterson, England, Syron, Peterson, Phillips, Bony, Cutner, and Logue. These men were chosen from the results of match play in the fall tourney and their diligence in winter practice.

Several shifts have been made since the ranking at the end of the fall term due to the winter practice program. Later revisions in ranking and admission of new players to the team will be determined by challenge match play. All prospects are urged to challenge the team members and the team members to challenge one another to match play. The results will determine the ranking and personnel of the varsity squad.

Giant City Camp To State CCC Tourney

Giant City, C. C. C. Camp defeated the camp of North City 22-15, in the Old Gym Monday, March 9, and thereby claimed the right to represent Southern Illinois camps in the C. C. C. basketball tournament to be staged at St. Louis in the near future. The game was hotly contested and neither side ever led by more than four points at any time during the game. It made the second consecutive year that the Giant City camp has qualified for the tournament. C. C. C. basketball championship.

Organize Freshman Girls' Gym Class

A freshman gymnasium class for girls who intend to minor in athletics has been formed. This activity class meets fifth period and has been studying designs for a new suit to be made for the girls. The new suit by athletic attire will practice teaching.

EMERY ON UNITED PRESS, ASSOCIATED PRESS CHOICES

Russ Emery, cool and canny play maker of the S. I. T. C. Maroon basketball team for four years and captain the past winter, received a special berth on both the United and Associated Press C. C. C. basketball selections, announced early this month.

The United Press choice, based like the Associated Press selection on a poll of coaches and officials throughout the loop, listed ten men, two for each position, because of the closeness of the voting.

The two teams:

United Press
Forwards — Goldman (Middletown), Woods (Macomb), Donaldson (Knash) and Belmore (Vintor); centers—Larsen (Carroll), Collins and Mead (Anna); guards—Henderson (Eldorado Wesleyan), Emery (S. I. T. C.), Benson (Wesleyan), and Nori (De Kalb).

Associated Press
Forwards—Woods (Macomb) and Wilson (McKendree); center—Larsen (Carroll); guards—Henderson (Eldorado Wesleyan), Emery (S. I. T. C.), Benson (Wesleyan), and Nori (De Kalb).

RODEO TO SHOW HERE IN MAY

With a Hi-Wipee and a couple of Yelps the Wild West will invade Carbondale May 14 and 15, at the Ramo Circus and Rodeo, from way out west in Olney, Illinois, where its spectacular entertainment to the S. I. T. C. athletic field.

This group of twenty-two performers, with the reputation of putting on one of the best shows of its kind in the country, is being sponsored by the S. I. T. C. Athletic Department as a stadium fund benefit and a considerable percentage of the take will be turned over to the growing stadium fund.

Southern Illinois is admitting the heavy toll to all exhibitors, can be obtained for one dollar. Single admission to each performance will be 25c.

The advance ticket sale will be conducted on this campus by some in Olney, Illinois, and will be a fifty-five percent of the advance sale and ten percent of the gate receipts may be retained by the college to be used as an addition to the stadium fund.

Advances men for the circus and performers are either college or high school graduates, and that their habits are of the best. Whether or not this includes the leading calf or not we couldn't determine. This is the case of the Evansville, Indiana, zoo, does a specialty stand of jumping moose cars as one of the features on the program of the hoof and saddle entertainers.

Further information concerning the state and acts of Ramo's Circus and Rodeo will be forthcoming in various issues of the paper between now and their appearance here in the first Wild West show to hit this particular section of the country for some time.

Gym Team Drills For Probable High School Exhibitions

Ten exhibitions probably will be given by the team this year, including the spring term at Southern Illinois high schools. Vincent DiGiovanna, physical education director of the college, announced this.

Although no definite action will be taken until Coach DiGiovanna sees all the principals of high schools at the Southern Illinois Teachers' Meeting this week, tentative dates have been arranged for exhibitions at the following schools: Ashley, and Nashville schools.

Principals of the following high schools are also seeking performances in their schools: Anna, Barton, Centralia, Harrisburg, Johnston City, Keokuk, Macomb, and West Frankfort. The numbers of the gym squad, which now numbers about thirty, have been training the first afternoon of the spring term and have gone through strenuous training during the past few days perfecting their exercises.

Women's Tennis Tourney Is Planned

Arrangements for the Women's Tennis tourney are being made by Sue Crain, who has been appointed tennis manager by the W. A. A. Many of the women who play tennis have practiced in the gymnasium during the winter term. Miss Crain has announced that she will endeavor to meet all those interested in tennis tomorrow at 1 o'clock in the girls' gymnasium.

INTRAMURAL BASEBALL WILL PROBABLY BEGIN LATE NEXT WEEK

Prospects For Third Annual Tourney Good

9 ENTRIES ALREADY IN

1935 Championship Nine, the Faculty, Will Return

With nine entries for the third annual S. I. T. C. spring baseball league already in, prospects for another successful diamond season are very promising. All entries must be in the box provided for that purpose in the athletic office at the gymnasium by Monday afternoon at 4 o'clock, when an important meeting of all baseball managers and men not invited will be held at the gym.

Fifteen men may be entered on each team and a manager must be designated on the entry sheet.

Play will probably begin late next week, after the teams have been organized. It is expected that a round robin schedule will be played, as was scheduled last year. However, last spring's bad weather cut the schedule for most of the fourteen teams down to six or seven games.

The games will be played on the baseball field, which is located on the bench at the south end of the old football field, and the other part north of the new field. Both will be worked over and put in shape for the season.

Last spring's league championship was won by the Faculty, who defeated the Fly Swatters in a final extra-inning struggle. However, in keeping with their custom, the Faculty defeated their title and allowed the names of the Fly Swatters to appear on the list of intramural winners. In any case, however, the Faculty will be regarded as defending champions and will probably be represented by a strong team.

In a fall revival of the league, the Maroon Monkeys were the champions by defeating the Fly Swatters in the unfavorable weather conditions, an incomplete schedule was played with interest not up to that of the regular spring league.

The Faculty for sometime has been only one of its regular line of last spring. The only player to be replaced is Ralph Davison, last spring's shortstop, who is now coaching at the University of Illinois. Davison was the physical education director in the physical education department. The remainder of the team consisted of Vincent DiGiovanna, Russell Nelson, and William McAndrew in the outfield; and John W. Wright, fielder; and Fred W. Lantz, pitcher; and Dr. C. H. Cranner, catcher. Also available for pitching duty are McAndrew and DiGiovanna.

The team was selected to form the All-Star team of the spring league, six are in the team in addition to six of the eight eight honorable mention. These twelve men are DiGiovanna, Tom Dunn, Harold Nelson, and John W. Wright, fielder; and Fred W. Lantz, pitcher; and Dr. C. H. Cranner, catcher. Also available for pitching duty are McAndrew and DiGiovanna.

The two fraternities will, as usual, be considered as the league's Kappa Delta, which finished in fourth place in the fourteen team league last season, do not appear to be as strong this season as they were then. Among those lost from last year's roster are Vernon, and John W. Wright, fielder; and Fred W. Lantz, pitcher; and Dr. C. H. Cranner, catcher. Also available for pitching duty are McAndrew and DiGiovanna.

The Kappa Delta will have among their returning men James Gansley, who carried the pitching burden for the fraternity nine last spring. Wesley Bonner, infielder; Max Hendricks, pitcher; and Bill Moore, catcher. Bonner, Hendricks, and Moore were all among the leading hitters of the league last year. The principal loss of the Kappa Delta, with that of George Holdridge, hard-hitting catcher, and the team's batting practice, is the loss of the team's batting practice.

Faculty News

Dr. and Mrs. Charles Tenney spent the week-end in St. Louis. While there they went to see "Dodsworth."

Dr. Richard L. Boyer made an address before the civic club of Johnston City at a Public Relations dinner meeting sponsored by the Business and Professional Women's Club. The meeting was held Tuesday at the First M. E. Church. Dr. Boyer also spoke at the Sunday evening service at the First Christian Church of Carbondale. Both addresses dealt with contemporary international relations.

During Spring vacation Mrs. Dorothy Muszey visited the Physical Education departments of several colleges in Texas, Texas Christian University in Fort Worth, the Southern Methodist University in Dallas, North Texas Teachers College and the College of Industrial Arts in Denton where those visited.

Miss Lucella Denny from Canyon City, Colorado is visiting her sister.

ROLLINS RUNSTOP HOSIERY

Stay away from my hose

If you've ever had a garter pop a runner from the full length of your stockings at a most inopportune time—then you know how fervent are the prayers against such damage. Rollins Runstop is positive assurance that not one single runner, however savage, starting in the top of your rolling stocking, can bite its way down through the red dotted line at the hem.

The Pair \$1.00

THE LEADER

Virginia Bldg. Carbondale, Ill.

SEVERAL COUNTY COMMITTEES SET

(Continued from page one)

T. C. have been accompanying Mr. McAndrew on the trips to their respective counties.

Faculty Members Volunteer Assistants

Several faculty members have volunteered to serve as assistants to the general county committees in the various counties. These instructors and the counties for which they will serve are as follows: Wayne county, W. G. Cline; Jefferson county, R. E. Muckelroy; Perry county, John L. Wright; Franklin county, Dr. M. M. Stuegg; Jackson county, Dr. R. A. Scott; Union county, W. O. Brown; Saline county, R. M. Nolen.

The names of about 15,000 former students of this college are now on file at the stadium office. This is the largest part of the 32,000 names on the record at the President's office of persons who have been registered here. The work of obtaining these names is being carried on steadily with two FSA students working in the administrative office every hour.

The complete list of all alumni of this school who are now teaching in Illinois has been received from the office of the State Superintendent of Public Instruction in Springfield. This list includes approximately 2500 names.

Another general letter to the alumni will be mailed this week to tell them of the progress of the funds drive this far.

Cooperation from the scattered groups has been extremely good, with pronounced activity in Chicago, St. Louis, Springfield, and Washington, D. C.

The report of the Springfield collections will be made at the meeting of the Southern division of the Illinois State Teachers here this week. The report will be delivered by Miss Velma Crain, who is in charge of those collections.

President Roscoe Pulliam and Captain McAndrew will attend the annual dinner meeting of the Chicago Egyptian Club April 11. At this dinner a special table will be reserved for alumni of Southern Illinois Normal University.

Mueller Heads Washington Activity

Activity in Washington, D. C. has centered around Alvin D. Mueller, who is in charge of the collections there. Mr. Mueller is a former student of this college. Among the Washington contributions is a check for \$10 from Dr. Clarence Hodge and his wife, formerly Jane Warren. Both are alumni of this school.

A total office force of nineteen is now at work in the stadium fund office, of which seventeen are FSA students.

The NYA office has aided materially in the progress of the stadium office drive by its advice in the type of cards and of the school history. The developments since the administration of Dr. Parkinson have been recorded by Miss Frances Noel, who also condensed the first part of the history from a thesis by Phyllis Prosser Klamon.

KNECHT ELECTED AG CLUB HEAD

During a brief meeting of the Agriculture club last Thursday night, Walter Knecht was elected president. He replaces Dale Hill, president for the last two terms. Loren Hardy was elected the vice-president.

H. E. Muckelroy, sponsor of the club, gave a brief talk at this meeting.

JEANETTE MODE FOOTWEAR

The utmost in quality at \$4.95

The shoes that complete your Easter ensemble. Black, blues, grays, patents, kid leathers and fabrics. Sizes 3 to 9, AAA to C's.

ZWICK'S

Wailing Wall

Dear Wailing Wall:

I hope that I am not merely wailing to a wall which has no eyes with which to see or ears with which to hear. I hope that some student or member of the faculty or administration will take enough notice of this letter to respond. I wish merely to state what facts that I know and ask why there isn't a remedy.

Why has this school such an abominable library system? Of course, we all know that the library is too small, due to the reserve system, to accommodate students who have to study in the library. We know that the library is too poorly arranged to give the students ample room and privacy, which are necessary for satisfactory work. We know that the library is rather poorly stocked with books. But these subjects have been discussed to great length before among the students. Such faults can't be held upon the shoulders of the people who are at present in charge of the school. We must be content with the all too small building and too few books, at least until the athletic program has been completed.

There are other faults though that we hope can be corrected with little trouble. The most noticeable of late is the fact that no student cannot check a book out of the library over spring vacation. The most ideal time that a student has for studying outside materials which are not required by professors is between terms. Students who wished to take book exams between the winter and spring terms were informed by the librarians that all books were due the same day that they were issued. A book could not be obtained for a two week period until Monday, March 9, which was three days after the winter term was dismissed. Then, and only then, could he get a book to use during the spring recess. If it was not on reserve.

Surely the purpose of a college library is to encourage the use of books. Our library not only fails to encourage the student to avail himself of its resources, but it imposes such regulations that the average student loses interest in attempting to do individual work. Do you think that the Southern library is functioning as it should?

I have stated my ideas concerning the faults of the S. I. T. C. library. I wish that someone would point out to me the errors in my statements or join in an attempt to obtain a decent library and library service which would be attractive, rather than repulsive, to the student.

Sincerely,
CHAS. W. MATHEWS

LOST AND FOUND

Illinois white gold ladies wrist watch with black ribbon bracelet. Lost either in Shryock Auditorium or between auditorium and car parked in the circle. Thursday night, March 19. Reward. Mae Abel, phone 301, 807 W. Schwartz St., Carbondale.

Few additions to the collection of lost articles in the President's office were made the past week, and there are the usual gloves, books, pens, and pencils.

I. S. T. A. PROGRAM WILL EMBODY NEW FEATURES

(Continued from page one)

State of Mississippi, member of State Teacher Training Survey, Alabama and General Education Board Fellow, National Educational Association.

An all Southern Illinois high school band of ninety pieces will give a concert Friday afternoon at 1:30. The band will be under the direction of George Hadden from Westmore.

The general program follows:
General Sessions—Shryock Auditorium
Thursday Morning—9:00
Call to Order—Floyd Smith, Retiring President.
Invocation—Rev. M. P. Schroeder.
Addresses of Welcome—President Pulliam.
President's Address—W. R. Main.
Report of Secretary—May Hawkins.
Report of Treasurer—M. L. Hunt.
Report of Financial Secretary—George McAdams.
Auditing Committee—Chairman's Report.
Report of N. E. A. Delegate—Floyd Smith.
Report of Illinois Teachers Protective Association—E. N. Powers.
Mark—Harrisburg Harmons—Fred Wanderlich, Bernice Lynch, Edward Lee and Bratcher Taylor.
Address—"The Place of Physical Education in a School Curriculum"—Dr. James A. Stigmatis.
The Nominating Committee will meet in the south second floor room of the Auditorium at the close of the Thursday morning session.

Thursday Afternoon
1:30-2:30—Sectional Meetings.
2:30-5:30—Recreation in Gymnasium. Miss Crawford chairman.
Thursday Evening—7:30
Organ Recital—Bertam S. Webber.
Address—Rabbi Ferdinand Isserman.

Friday Morning—9:00
"The Teachers' Pension and Other Laws"—T. A. Reynolds
Report of Nominating Committee—Chairman.
Report of Resolutions Committee—L. E. Elderton.
Report of Public Relations Committee—Elbert Fulkerson.
Report of Constitution Revision Committee—Bruce W. Merwin.
Report of Legislative Committee—A. J. Walker.
Report of State Executive Committee—S. B. Sullivan.
New business.
Address—John A. Wetland.
Friday Afternoon—1:30
Music—Southern Illinois All High School Band.
Address—Fred L. Hestier.
Address—"The Modern Teacher Looks Ahead"—Charles W. Knudsen.

New Features In Summer Term

The opening of the eight weeks summer session on June 3 will see a great number of departures from tradition. For the first time an extension course and an Egyptian are being offered. There will also be a three-day conference for teachers and school administrators, which will be held at the college beginning Wednesday, June 17.

Quoting from the summer session bulletin, "a program of lectures and group discussions, which will be open to anyone who is interested in education whether he is registered as a student in the summer session or not, will be provided. An added feature of this conference will be an educational exhibit by the publishing companies of books and other materials of interest to teachers." The details of this conference will be announced later.

Regulations governing classes are much the same as those of last year. Classes will meet five times a week.
